SAP® + NET IMPACT

IMPACTATHON

Saturday, February 7th, 2015
9:00 AM - 6:30 PM
Berlin, Germany

Over the next year, technology company SAP and nonprofit Net Impact are on a social impact world tour, bringing innovation events called **Impactathons** to major cities around the globe. These lively, 1-day challenges encourage teams to generate solutions to a local social issue facing NGOs and social enterprises using a guided design thinking process.

5 reasons to join our Impactathon

Over the course of 10 hours, participants will:

1) **Meet** passionate students who care about social impact
2) **Learn** and apply design thinking principles to social issues
3) **Get** first access to SAP jobs and internships
4) **Hone** creativity, teamwork, and communication skills
5) **Network** directly with SAP employees

Teams will be assigned the day of the Impactathon and given unique opportunities to connect over meals, energizer breaks, and collaborative activities. *Please note there is no cost to attend and students must have basic English skills to present their idea.*

"I met so many interesting people and the event was all around fun! It was refreshing to tackle an important issue that many young people struggle with today."

— Kara Korab, Paris Impactathon

Apply for our Berlin event
