

# HPI School of Entrepreneurship

## Accelerating IT-Startups with Passion and Know-how

### Events

We organize events like XPERT-Talks for you to learn more about entrepreneurial topics from experts and listen to their practical experiences. Additionally, we carry out workshops to introduce entrepreneurship tools like the business model canvas.

### Education

In the entrepreneurship lecture you work with fellow students and business partners on practical challenges and develop a business model based on customer feedback. Moreover, inspiring guest speakers talk about their startup experiences.

### Bootcamps

In 2-3 days you work intensively and with a lot of fun on business ideas and get to know other students and entrepreneurs. We offer bootcamps together with the HHL business school and D-School or specifically for PhD students.

### Coworking

Our coworking space at Campus III, Rudolf-Breitscheid-Str. 189, gives you the opportunity to work on your business idea and to get in contact with other founders and the E-School team.

### Coaching & workshops

Reach your goal faster through coaching on a regular basis or get feedback to specific questions. Besides that we offer workshop sessions about topics like team, value proposition, business model canvas, lean startup approach, MVP, market and competitor analysis, finance, and pitching.

### Business plan competition

During the BPC you develop your business idea further, get input from the E-School team and external coaches to entrepreneurial fundamentals from business model canvas to business development and fundraising. The winners receive a prize of up to € 100,000.

### Funding

HPI related startups have the chance to receive an early funding from the HPI Seed Fund.
