

# Information Session

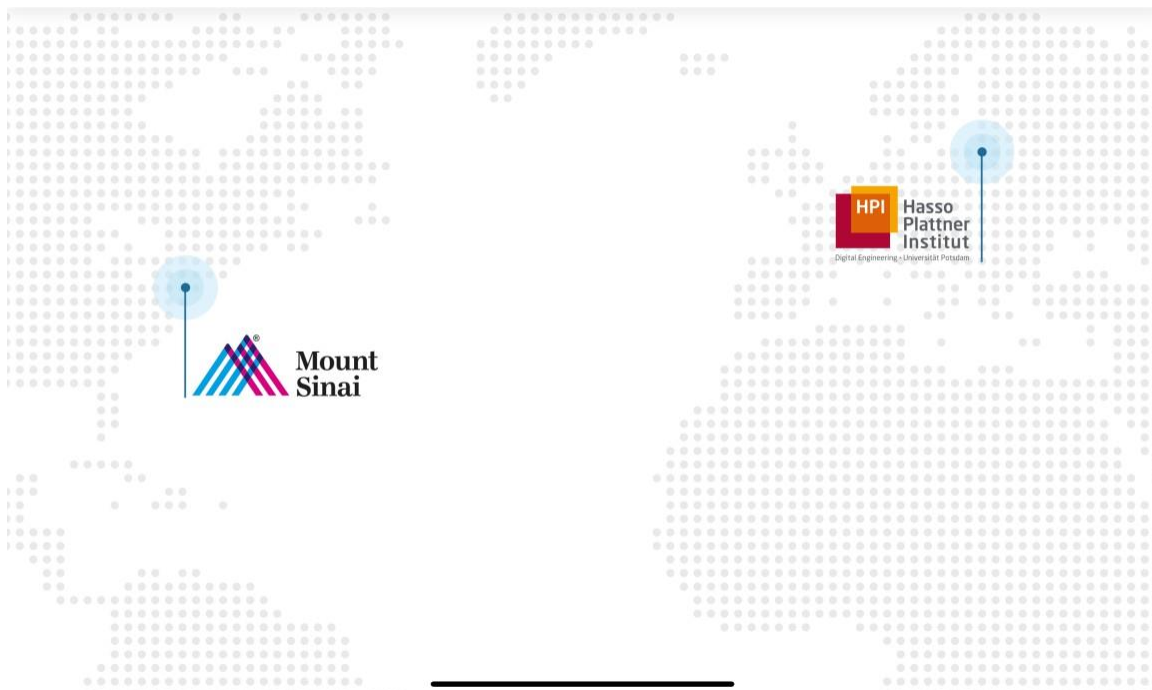

## Digital Health Partnership

### Call for Proposals (Digital Health Graduate School)

---

**27 June 2024, 15-16h (CEST)**

The international academic and research collaboration between HPI Potsdam and the Mount Sinai Health System was initiated in 2019, in an effort to bring together digital engineering and healthcare, resulting in the foundation of the Hasso Plattner Institute for Digital Health at Mount Sinai (HPI.MS). In April 2024 a new graduate school was launched to strengthen this collaboration. A call for proposals was released in June. This information session will serve to answer any open question you may have about submitting a proposal to become part of the graduate school.

The information session will be held virtually via the following link:
