

The following instructions provide you a brief introduction for the openHPI platform to conduct your exercise successfully. The exercise is intended for participants of the given lecture exclusively. Therefore, please keep the link confidential and DO NOT share it publicly.

1. Enroll for the course.

Please visit the given openHPI lecture page and click on the button to enroll for the course. You will be prompted to login using your openHPI credentials or sign up for a new openHPI account. Please check that your user profile contains your personal information correctly prior to proceed.

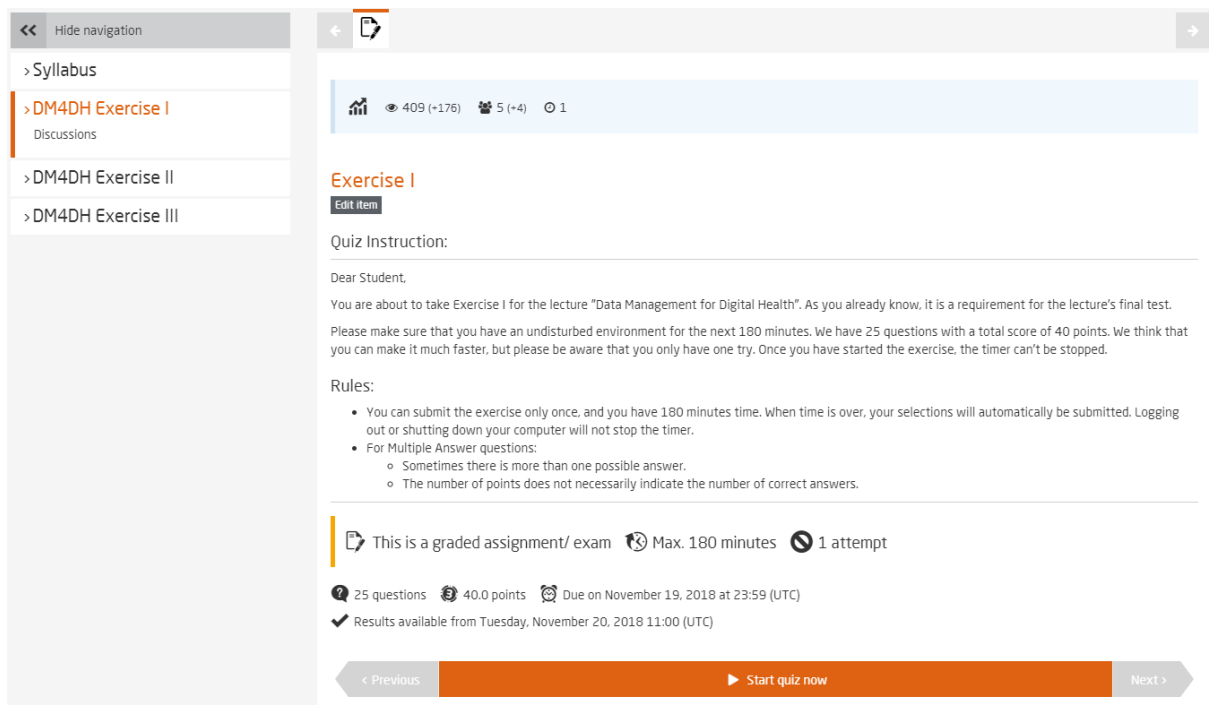

2. Enter the course page.

After enrolling for the course, you can enter the course.

3. Select the corresponding exercise from the “Learnings” menu.

Please take your time and read the instruction screen carefully. It contains important information about the setting and eventual restrictions once you have decided to started to work on an exercise.

The screenshot shows the user interface of the openHPI platform. On the left is a navigation menu with a 'Hide navigation' button at the top. The menu items are: '> Syllabus', '> DM4DH Exercise I' (which is highlighted in orange and has a 'Discussions' link below it), '> DM4DH Exercise II', and '> DM4DH Exercise III'. The main content area on the right shows the details for 'Exercise I'. At the top of this area, there are statistics: a bar chart icon, '409 (+176)', a group icon, '5 (+4)', and a lock icon, '1'. Below this is the title 'Exercise I' with an 'Edit Item' button. The 'Quiz Instruction:' section contains a message: 'Dear Student, You are about to take Exercise I for the lecture "Data Management for Digital Health". As you already know, it is a requirement for the lecture's final test. Please make sure that you have an undisturbed environment for the next 180 minutes. We have 25 questions with a total score of 40 points. We think that you can make it much faster, but please be aware that you only have one try. Once you have started the exercise, the timer can't be stopped.' Below the instruction are 'Rules:' which include: 'You can submit the exercise only once, and you have 180 minutes time. When time is over, your selections will automatically be submitted. Logging out or shutting down your computer will not stop the timer.' and 'For Multiple Answer questions: Sometimes there is more than one possible answer. The number of points does not necessarily indicate the number of correct answers.' At the bottom of the main area, there is a summary bar: 'This is a graded assignment/ exam' with icons for 'Max. 180 minutes' and '1 attempt'. Below this, it says '25 questions', '40.0 points', and 'Due on November 19, 2018 at 23:59 (UTC)'. A checkmark indicates 'Results available from Tuesday, November 20, 2018 11:00 (UTC)'. At the very bottom, there are navigation buttons: '< Previous', '▶ Start quiz now', and 'Next >'.

4. Start working on the exercise.

Click the button “Start quiz now” to start the exercise. To submit your exercise, use the button “Send my final answers” on the exercise screen.
