

Student Job Offer

We are looking for student co-workers in the research field
Semantic Web and Semantic Multimedia at the Hasso Plattner
Institute in Potsdam Griebnitzsee.

Weekly working hours: 7

Task Areas:

- Web-Application Development
- Web-Services
- Semantic Audio-/Video-Annotations
- Videoanalysis/Videoprocessing
- Semantic Search/Searchengines
- Data Mining
- Interface Design

Technologies:

- Java
- JavaScript
- Maven
- Linux/Unix
- C, Python
- Databases/SQL
- RDF / SPARQL

The described field of research will influence the future of the World Wide Web significantly. Your major task area will be the improvement and further development of our software prototypes.

Are you innovative, creative and do you wish to gain experience in the described areas?

Please contact us right away!
