## Analysis and Research Assignments (2)

**Dr. Rehab Alnemr**

Prof. Dr. Christoph Meinel

Chair of Internet Technologies  
Hasso Plattner Institute  
Potsdam, Germany

# Missing Questions & Analysis

2

- Explicit differentiation bet.
  - Reputation of Item/thing
  - Karma
- Influence of them on each other
- Influence of moderators &/or System administrators
- Can someone cheat? How to overcome it?
- Is there Negative Reputation (i.e. dislike)?
- Punishments?
- Is there an incentive for honest feedback?

## Missing Questions & Analysis

3

- In your analysis, differentiate between:
  - Quality
  - Popularity
  - Trustability
- and tell us how this is affecting the reputation system!

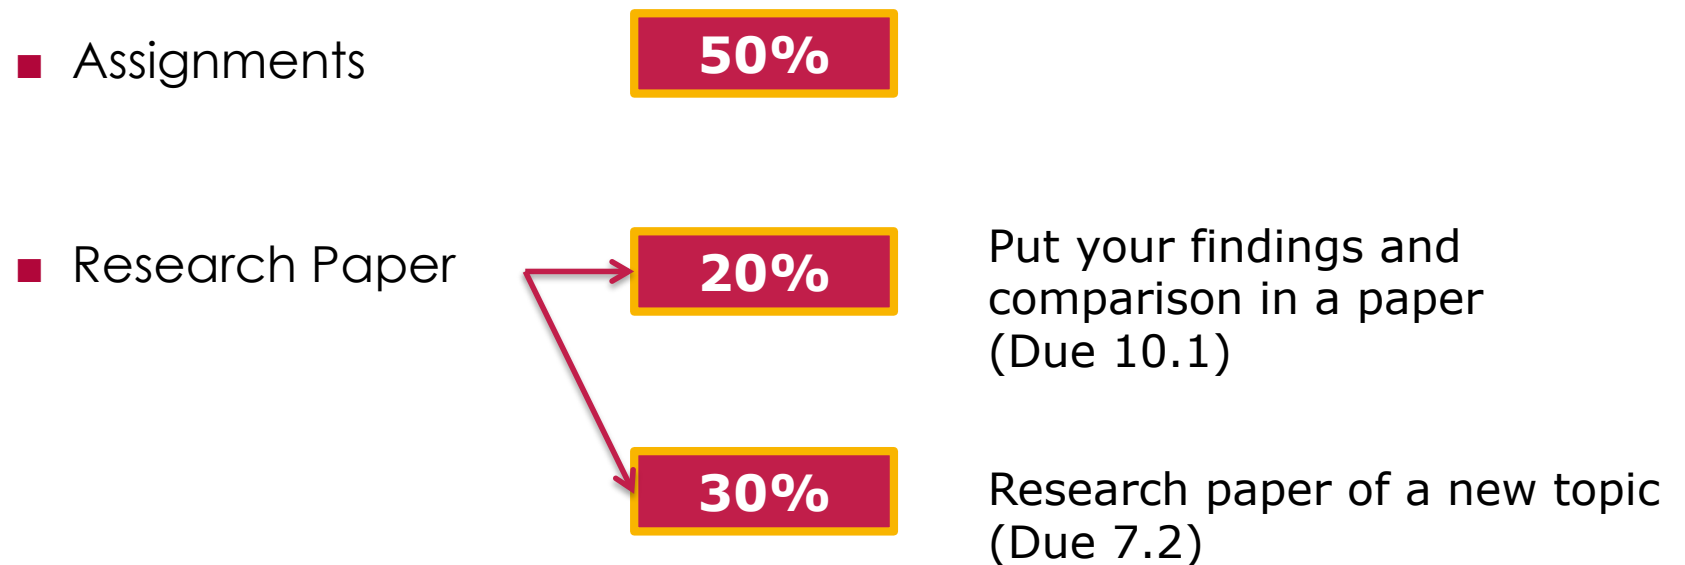

## Complications in the Reputation Sys.?

4

- Go back and modify one of these complications
- Social behavior that could arise from design decisions

# Slight Change of plans!

5

6

<b>week</b>	<b>date</b>	
1	25.10.2012	Introduction to Reputation and Reputation System
2	1.11.2012	More into Reputation Systems
3	8.11.2012	Research and team assignments 1: Compare and Contrast
4	15.11.2012	Office hours
5	22.11.2012	Office hours
6	29.11.2012	Presentations of research assignment 1
7	6.12.2012	Research and team assignments 2: Reputation Design
8	13-20.12.2012	Office hours
9	10.1.2013	Presentations of research assignment 2
10	17.1.2013	Discussion of Papers Topics
11	24.1.2013	Office hours
12	31.1.2013	Paper Presentations
13	7.2.2013	Paper Presentations
