

Multiple Sense Word Scoring

Please choose for the following words if, in your opinion, the word has gained an additional sense since 1800 or not.

A word sense is a commonly accepted meaning of a word. That meaning should not be the name of a person, but can be the name of a company or a product/model.

An example: the word "bush" has the meaning of the plant-like thing but not of the US politicians, while the word "apple" has the meaning of the fruit as well as the meaning of the company.
