

Oral Exam Preparation & Homework

Software Engineering II
WS 2019/20

Enterprise Platform and Integration Concepts

SWTII Oral Exam

Exam

The exams are scheduled for 17th and 18th February 2020

- Exams between 09:00 and 13:00
- Exact time slots for groups will be communicated by email
- Send an email if you prefer one day over the other

SWTII Oral Exam Basics

Group Oral Exam

- Focus on discussion
- Group exam of 3 people
- Questions posed one by one to each participant
- 3 categories of questions (each participant answers at least one of each)
 - Knowledge (What is ...?)
 - Understanding (Explain..., Visualize...)
 - Applying learnings (How would you..., Given the following scenario..., What is the worst-case...)
- Questions from each category drawn randomly
- 30 minutes overall per group
- **Bring your Studierendenausweis!**

Homework

Open-source, crowd-sourced, cooperative exam preparation

- We have a pool of questions for the exam
 - We don't necessarily want to share all of them
 - You write your own exam questions!
-
- Scour the slides and the related literature for topics
 - Google/Bing/DuckDuckGo,
e.g. “why Scrum sucks”, “ScrumButs”, “Scrum Pitfalls”
 - Collaborate
 - Also think about possible answers

Homework

Everyone: Create an exam question and send it to me!

christoph.matthies@hpi.de, deadline 6.2.2020

- Things you did not understand
 - Things that you were particularly interested in
 - Things you think might be hard/easy to answer?!
-
- I will collect all questions and share them
 - We can discuss some of them on the 7th Feb (last lecture)
 - **The ones we like best, we'll add to the question pool for the oral exam!**
