TRUST MANAGEMENT SYMPOSIUM

Industry meets Academia
22-23 of March 2012

Design IT. Create Knowledge.

IFIPTM

HPI Hasso Plattner Institut
IT Systems Engineering | Universität Potsdam

About the Symposium

Recognizing the growing interest in the field of trust management, the Hasso Plattner Institute (HPI) is organizing a symposium that brings experts from research and industry to discuss and present the newest research, current developments and trends in the field of Trust Management.

In cooperation with the "International Federation for Information Processing, the Trust Management working group (IFIPTM)", the symposium will be held for a day and a half in the Hasso Plattner Institute campus in Potsdam to discuss topics varying from trust models, trust in social media, reputation and recommendation systems, and identity management to topics such as privacy and trust in enterprise collaboration.

Topics of Interest

- Semantics and Models for Security and Trust
- Trust management Architectures and Mechanisms
- Policy-based Approach to Trust Management
- Reputation and Recommendation Systems
- Identity Management
- Privacy and Trust
- Trust in E-commerce, E-service, E-government
- Trust in Semantic Web
- Social and Legal Aspect of Trust
