

Research Assistant

Support for Security Online-Courses

Hiwi Position

Background

In the Online-Courses for openHPI from our Team, such as our security courses or general IT-courses, we want to improve the interactive content. You should be familiar with security topics as well as have a good understanding of networking and the internet.

Goal

As a research assistant, you should help us create these interactive exercises:

- Get an understanding of possibilities of H5P as a platform / framework
- Develop ideas for interactive exercises
- Optional: Create additional learning videos
